NEX AI — EMPLOYEE WORK SKILLS & PERFORMANCE R

Ø=ÜÈ Work Skills App

Confidential Internal Competency & Execution Appraisal

EMPLOYEE NAME:	CC	**EMPLOYEE ID:**	1
TARGET POSITION:	Frontend Developer	**EVALUATION DATE:**	10/30/2026 05:33 PM

1. WORK PERFORMANCE SUMMARY & RATING

RATING: NEEDS DEVELOPMENT

Work Skills Executive Summary:
CC demonstrated minimal engagement and failed to show practical competency across essential frontend skills such as React, TypeScript, and state management. With dismissive and non-substantive answers throughout the appraisal, CC did not verify any core engineering disciplines or project execution capabilities.

Performance Appraisal Insights:
The employee provided dismissive and empty responses to all architectural, collaboration, and work experience questions. A single correct multiple-choice response does not demonstrate baseline competency for a Frontend Developer, indicating urgent performance intervention is required.

2. CORE WORK COMPETENCIES & TECHNICAL MASTERY

Demonstrated Work Competencies:

- Basic Python State Mutability Concepts

Target Upskilling Competencies:

- React & TypeScript Component Architecture
- Modern State Management (Redux/Zustand)
- Frontend Unit and Integration Testing
- Web Performance Optimization & SEO

Technical Execution Analysis:
CC showed zero depth in frontend domain knowledge, failing to articulate any implementation details regarding React, TypeScript, state management, or testing. The employee also failed a fundamental JavaScript/Python closure variable binding test question.

Coding MCQs Output Accuracy: 1/2 (50%)

3. EXECUTION QUALITY & OPERATIONAL EFFICIENCY

Score: 1/10 (Developing)

Delivery Velocity & Code/Work Quality:
The lack of professional effort in the appraisal reflects critical deficiencies in engineering discipline, reliability, and technical accountability necessary for active sprint environments.

4. PROJECT DELIVERY, OWNERSHIP & BUSINESS IMPACT

Ownership: 1/10

Value Delivered to Team:
No observable technical contributions, UI architectures, or feature deliverables could be verified.

5. PROFESSIONAL UPSKILLING & DEVELOPMENT ROADMAP

- Comprehensive React & TypeScript Application Architecture
- Frontend Testing Strategies (Jest/React Testing Library)
- Professional Communication and Stakeholder Collaboration Standards
