NEX AI — EMPLOYEE WORK SKILLS & PERFORMANCE R

Ø=ÜÈ Work Skills App

Confidential Internal Competency & Execution Appraisal

EMPLOYEE NAME:	Charann	**EMPLOYEE ID:**	EMP-101
TARGET POSITION:	Frontend Developer	**EVALUATION DATE:**	10/27/2026 04:07 PM

1. WORK PERFORMANCE SUMMARY & RATING

RATING: NEEDS DEVELOPMENT

Work Skills Executive Summary:
Charann exhibits a critical gap between reported past sprint reliability and the ability to demonstrate or articulate core frontend engineering competencies. Despite a 3-year background in React and TypeScript SaaS applications, the employee repeatedly refused to explain component architecture, state management, or performance trade-offs during evaluation. Significant effort is required to establish baseline technical rigor, professional communication, and measurable engineering craft.

Performance Appraisal Insights:
While historical manager feedback notes sprint reliability, Charann failed to demonstrate baseline technical proficiency, architectural understanding, or quality assurance practices during the assessment, offering dismissive responses instead of technical depth.

2. CORE WORK COMPETENCIES & TECHNICAL MASTERY

Demonstrated Work Competencies:

- Basic React Routing Concepts

Target Upskilling Competencies:

- State Management (Redux/Zustand)
- Advanced TypeScript & React Architecture
- Web Performance Optimization & SEO
- REST & GraphQL API Integration
- Tailwind CSS & Modern Styling Patterns

Technical Execution Analysis:
Charann displayed minimal domain knowledge during the appraisal, providing superficial and non-responsive answers when asked to discuss state management, system architecture, performance trade-offs, and quality standards.

3. EXECUTION QUALITY & OPERATIONAL EFFICIENCY

Score: 3/10 (Developing)

Delivery Velocity & Code/Work Quality:
Although past sprint completion was noted by management, the employee unable or unwilling to explain empirical delivery quality, test coverage practices, or engineering trade-offs required for mid-level frontend execution.

4. PROJECT DELIVERY, OWNERSHIP & BUSINESS IMPACT

Ownership: 2/10

Value Delivered to Team:
Assisted with responsive SaaS UI features, but unable to validate ownership of key architecture, system design, or performance enhancements.

5. PROFESSIONAL UPSKILLING & DEVELOPMENT ROADMAP

- Deep-dive training in React/Next.js Architecture & State Management
- Web Performance Profiling, Metrics, and Optimization Techniques
- Professional Technical Communication & Code Review Practices
